The thermometer ranges from 58° to 65°.

Meat and fish are in great perfection. Game of all kinds in abundance. Vegetables,—green peas, young potatoes, lettuces, young onions, radishes, small salad, sweet potatoes, French beans, seem, brinjals, yams, carrots, turnips, greens, young cabbages, and cauliflowers. Fruit, much the same as last month; tipparee or Brazil currants make their appearance this month, together with wood-apples and other fruits.

MONEY ORDERS.

INLAND AND CEYLON MONEY ORDERS.

Post offices generally are authorized to issue and pay money orders.

A separate application written on one of the printed forms supplied gratis by the post office must be made for each money order. The name of only one person may be entered in the application as payee, and the name of only one person as remitter, except in the case of Firms or Cor-

porations, when the usual designation must be given.

The remitter shall have nothing to do with the transmission of the money order, this work being done entirely by the post office; but in due course he should expect to receive through the post office an acknowledgment signed by the payee. A money order shall be delivered by the post office of the post town named in the address given by the remitter, and, if necessary, it shall be redirected. A money order delivered by the post office to the payee shall be accompanied by a receipt and an acknowledgment, both of which must be signed by him on taking delivery of the money order. The acknowledgment so signed shall be forwarded by the post office to the remitter. The remitter may also fill up and sign the coupon entering the purpose for which the money order is remitted, or any other particulars he pleases. This coupon will be detached and kept by the payee as a voucher. A money order is not transferable by indorsement: it must be signed by the payee named therein, and having been so signed, it may be presented for payment by the payee or any other legitimate holder. Money orders should be presented for payment as soon as possible after delivery. The coupon should be cut off and kept by the payee.

After the close of the month following the month of the date of the moncy order, it shall lapse: a lapsed order shall, however, be payable within two months from the date of its lapsing, if postage stamps equal in value to the original commission be affixed to the back of it. After the expiration of

two months from the date of lapsing, the amount of the money order shall be forfeited.

A money order can be paid only at the office or offices of payment mentioned thereon. If a money order is lost, application for a duplicate may be made by the payee to the office of payment, or its head office, accompanied by a fee in cash equal to the original commission. It must be made in writing, and the post office shall require the applicant to furnish such particulars or evidence as may be deemed necessary to establish the claim.

The value of a money order shall not exceed Rs. 150, and shall not include the fraction of an anna. The same remitter shall not be allowed to obtain in one day more than four money orders

payable to the same person.

STOCK NOTES.

With the object of affording greater facilities for the investment of small sums at interest, the Government of India have issued a new kind of security termed "stock notes."

Stock notes are of four denominations, viz., Rs. 121, Rs. 25, Rs. 50, and Rs. 100.

Stock notes are issued at par, and bear interest at the rate of 4 per cent. per annum.

Stock notes are transferable from hand to hand, without endorsement or any other formality whatever, the purchaser, presumably, paying to the vendor the interest accrued up to date of transfer. The amount of interest accruing monthly on each note is for the convenience and security of the public, stated on the face of it.

A person purchasing a stock note at any other time than the first half of the February of the year preceding that marked upon the lowest (that is, the first payable) coupon attached thereto shall have the option (1) of paying up the interest already accrued upon the said coupon and of keeping the said coupon, or (2) of receiving anticipation interest up to the 1st of February following the date of purchase, and taking the note without the said coupon. In all such cases no account shall be taken of the interest due for broken periods of a month.

and the anticipatory interest to be paid is the full year's interest (shewn in the last line) dimnished by the amount shewn against the date of sale.

Riustration.—A note for Rs. 25 is sold on the 16th Jund 1882, with a coupon attached bearing date 1st February 1883. Here the purchaser may either pay interest for five months and retain the first coupon, or receive interest for seven months and give up the first coupon. For broken periods up to the 15th of a month, the purchaser cannot claim abatement; and for broken periods from the 16th to the end of month, no claim can be made against him.

The interest payable on stock notes will be free from taxation of every description.

In order to obviate inconvenience to landowners from the collection and payment of landrevenue, stock notes may be deposited at the Government Treasury where such revenue is payable;
and the interest thereon will be credited, as it falls due, to the land-revenue account of the depositor.
The notes will be returned and the arrangement terminated whenever the depositor so desires. The
interest on coupons, if they are presented undetached from the stock note to which they belong, will
also be credited, when it has become due, in payment of land-revenue and State demands of all kinds.

Stock notes will be obtainable on demand at all district, sub-divisional, and tahsildar's or similar subordinate Treasuries. Notes of any of the three lower denominations will also be exchangeable at such Treasuries for their equivalent in notes of the higher denominations.

Interest will be payable annually, on presentation of the note, on or after the dates specified thereon, at any of the Treasuries situated within the circle to which the note belongs. The transfer of payment of interest from one circle to another will not ordinarily be allowed. On the first presentation, the disbursing officer will himself cut off, and retain as a voucher for the debit in subsequent presentations he will similarly cut off and retain the succeeding coupons. On presentation of the final or principal portion of the note, he will retain it and issue to the holder a new note, which will similarly run for a fresh series of years, and so on, unless the note shall have been advertised for repayment. No note will be discharged within twenty-years from the date of issue thereof, or without six months previous notice of intention to discharge.

Applications respecting mutilated and lost stock notes will be treated, as far as possible, according to the rule laid down for mutilated and lost currency notes of the Government of India.

CURRENCY NOTES

Are issued from the following Circles and Sub-Circles: Calcutta, having for its Sub-Circles Allahabad and Lahore; Madras, having for its Sub-Circles Calicut and Coconada; Bombay, having for its Sub-Circles Karachi, Nagpur, and Akola.

The Numbers and Indicating Letters should be carefully noted when receiving and parting with Notes. The value of a whole Note lost in post or otherwise cannot be recovered from Government except by a special order of Government under very special circumstances.

The value of Notes mutilated may be recovered on the circumstance being reported to the Commissioner of Paper Currency of the Circle to which the Note belongs, with its number, date, &c., and, after a certain time, pay the amount on an indemnity-bond to be granted by the principal and two securities.

The value of a half-Note, the other half of which has been lost, may be recovered in the same manner.

A Note lost should at once be reported to the Commissioner of Paper Currency of the Circle to which it belongs, with its number, &c., for the purpose of its being "stopped."

The Government cannot refuse to cash a Currency Note by whomsoever presented, but the name and address of the presenter will be taken and reported to the rightful owner for him to take whatever steps he may think necessary.

Any person who has come into possession honestly of a mismatched Note, may, if he desires, leave it in deposit at the Currency Office of the Circle concerned, in order that, if the corresponding half turns up, he may be put in the way of recovery of the value.

                 N.B.—The Guz varies in different localities from 24 to 36 Inches.
     There appear to be no Indian measures of capacity for Dry and Liquid goods, which are sold
 by weight. Wherever, for the sake of convenience, measures are employed, they are intended to
 represent some specific weight of a Seer, Chittack, &c.
                                        LINEAL MEASURE.
     Notwithstanding that the cubit or human fore-arm is the basis or unit in Oriental and Western
 Countries, there is no fixed standard established in India.
     In Bengal the measure mostly used is the following.:-
     1 Hath (Cubic)
                                                                            18 Inches.
 4 Haths = 1 Danda
2,000 Dandas = 1 Coss.
                                                                             2 Yards.
                                        ...
     The Coss or Bengal mile is equal to 1 mile, 1 furlong, 3 poles, 3 yards English.
     The Indian Imperial Coss is equal to 21 miles nearly.

In the N. W. Provinces, the average distance is about 2 miles, but it differs in almost every
 province in the country. For instance, in Agra and Muttra, the coss is about 12 miles; towards the
 Hills the coss is a little more than a mile; in Bundlecund is three times as long as in other parts,
 and is called a Pucca Coss; while in the Doab is the Gow Coss, or as far as the lowing of a cow is
 heard at dead of night.

BRITISH INDIAN MONEY, WEIGHTS, &C.

The following Tables have been calculated on the old elements of Indian weights. If is were necessary to convert old Bazar Maunds into new ones, the operation would consist simply in the following rule:—

A (the old weight): Y (the new weight):: 1,79,666: 1,80,000.

SARSAPARILLA.

WILKINSON'S COMPOUND ESSENCE OF FLUID EXTRACT

RED JAMAICA SARSAPARILLA

Is the only Preparation recognised by the Faculty of this wonderful purifier of the Human Blood.

IT is not too much to say that those suffering from the effects of tropical climates. such as Torpid Liver, Debility, Impurity of the Blood, Cutaneous Dispeases, Rheumatism, Lassitude, Nervousness, Attenuation of the Body, and other complaints, will, by taking a course of this extraordinary Essence of Red Jamaica Sarsa-Parilla, soon find relief, and ultimately a cure. It may here be stated that those who take this valuable preparation regularly at the changes of the seasons, give the system such power as to throw off easily any ill-effects therefrom; and it is asserted system such power as to throw off easily any ill-effects therefrom; and it is asserted by competent authorities to be a decided specific after taking mercurials—hence its deserved celebrity. Earl Stanhope has tennaked that, "he who discovers and makes known a remedy for any malady regarded as incurable, is entitled to greater honour than the most renowned conqueror." What, then, does that man deserve who succeeds in preventing those maladies which poor humanity is afflicted with? A celebrated Physician says, "To me it would be most gratifying to hear of this invaluable medicine, introduced, if possible, into every family residing in hot climates, for I am convinced, if frequently taken, it would be found mimensely beneficial."

It acts by producing a gradual change in the fluids and habit of body, its modus operandi being that of a most efficient Alterative, giving an impulse to the natural secretions and excretions; assisting those functions which maintain life and health, and by which the blood is renewed and made to circulate through the extreme arteries and minute capillaries; promoting the appetite, digestion, and the assumilation of

and minute capillaries; promoting the appetite, digestion, and the assimilation of food; and thus imparting strength and vigour to all parts of the animal frame. If it is asked—What is an Alterafood; and thus imparting strength and vigout to all pairs of the animal frame. If it is asked—What is an Alterative? It is this: it involves the basis of operation of most other medicines; that is, by imparting an impulse to the capillary circulation, promoting the power of the absorbents, exhalents, and of the entire eccerning system; thus regonerating healthy blood, and conveying in numberless streams the pabulum of life to all parts of the animal frame. Its effects, then, are simply to and the renovating powers of the system or the ris medicatra: that is, to assist Nature to come in her own way. It is, therefore, adapted for all disorders requiring the use of an Alterative. It is by the judicious use of Wilkinson's Essence or Fluid Expiracy of RED JAMAICA SARSAPARILLA, that a constitution may be gradually built up until strong enough to resist any tendency to disease. Hundreds of subtle maladies are floating around us, ready to attack wherever there is a weak part. We may escape many a fatal shaft by keeping ourselves well-fortified with pure blood and a properly nourished frame.

"We cannot speak too highly of your Essence of Red Jamaica Sarsaparilla."—Lancet.
"We recommend your Essence of Red Jamaica Sarsaparilla."—Medical Review.
"The only preparation (Red Jamaica) for removing what may be called the sequelæ of a Mercurial course."—
Sir R. MARTIN.

Sin R. MARTIN.

The late LORD CLYDE, writing for a further supply of "Wilkinson's Sursaparilla," says:—"I am never without it, for when feeling depressed or out of sorts from anxiety or fatigue, a dose or two animates me."

"Your Essence of Red Jamaica Sarsaparilla cured me of a Torpid Liver when all other medicines had failed."—EARL OF ALDBOROUGH.

"When new comers are found in every branch of business to push aside rivals of older standing, it is very satisfactory to see that the original old-established Red Jamaica Sarsaparilla, prepared by Thomas Wilkinson, 270, Regent Street, London, holds its place pre-emmently. This is, doubtless, owing to its unsurpassable inerity."—

Calcutta Englishman.

IMPORTANT CAUTION.—The public are respectfully cautioned against Cheap preparations, which, instead of being what they profess (Saisaparilla), are nothing more than a Decertion of common Herbs, sweetened with Molasses, and flavoured with American Winter Green. The genuine has T. WILKINSON, LATE WILKIN-

SON, BRIDGE & Co., 270, REGERT STREET, LONDON, stamped on the bottle; also the Trade Mark thus we engraved at the bottom of the bottle: none else is genuine. See, and have no other.

Gout, was advised by a celebrated London physician to take two spoonsful of ENO'S FRUIT SALT in a tumbler of water first thing in the morning, the physician at the same time observing to my friend, 'I always take it myself, and find it invaluable and can confidently recommend it to you as the best remedy you can possibly use.' The above occurrence took place some menths since. My friend at once commenced taking the FRUIT SALT as recommended, and the benefit he has received is something wonderful—in fact, he is quite a new man.

Yours faithfully, X. Y. Z."
"I quarante the above Testimonial to have been given, unsolicited, by a conscientious good man."—J. C. E. BILIOUS ATTACKS.—In bilious people, and what are called bilious attacks, the liver is employed in getting rid of excessive quantities of certain ingredients, and when it is unable to do so, sick headsohe is produced by a retention of bile in the blood. ENO'S FRUIT SALT exercises a simple but special action on the liver, by which the secretion of bile is regulated. In the deficiency, therefore, of the excretive powers of the liver into the intestines, biliousness is caused, and, as a natural consequence, great sluggishness of the body and apathy of the mind. In any case where the liver is sluggish. ENO'S

the excretive powers of the liver into the intestines, billousness is caused, and, as a natural consequence, great sluggishness of the body and apathy of the mind. In any case where the liver is sluggish, ENO'S FRUIT SALT will increase its action by natural means, and thus prevent what is termed "the blues."

USE ENO'S FRUIT SALT, prepared from sound ripe fruit. What every travelling trunk and household in the world ought to contain—a bottle of ENO'S FRUIT SALT. Without such a simple precaution the jeopardy of life is immensely increased—"All our customers for ENO'S FRUIT SALT would not be without it upon any consideration, they having received so much benefit from it."—Wood Brothers, Chemists, Jersey, 1878.

ENO'S FRUIT SALT.—"After suffering for nearly two and a half years from severe Headache and Disordered Stomach, and after trying almost everything, and spending much money without finding any benefit, I was recommended by a friend to try your FRUIT SALT, and before I had finished one bottle I found it doing me a great deal of good, and now I am restored to my usual health; and others I know that have tried it, have not enjoyed such good health for years.—Yours most truly, Robert Humphreys, Post Office, Barrasford."

CAUTION .- Examine each Bottle, and see that the Capsule is marked "ENO'S FRUIT SALT." Without it, you have been imposed on by a worthless imitation. SOLD BY ALL CHEMISTS.

THE SEEMING MYSTERY OF CHOLERA AND FEVER.

THE OFFICE OF THE LIVER IS TO CLEANSE THE BLOOD, as a scavenger might sweep the streets; when the liver is not working properly a quantity of effects (or waste) matter is left floating in the blood; under these circumstances, should the poison germ of Cholera or Fever be is left hoating in the blood; under these circumstances, should the poison germ of Unders or Fever be absorbed, then the disease results; on the contrary, anyone whose liver and other organs are in a normal or healthy condition may be subjected to precisely the same condition as to the contagious influences and yet escape Gholera and Fever. This, I consider, explains satisfactorily the seeming mystery that persons who are placed in circumstances peculiarly favourable for the Development of Cholera or Fever, who in fact live in the midst of it, escape anscathed. Cholera and Fever may be compared to a weed (and a very ugly one too), but even weeds will not grow on solid flagstones; and what I contend for is this that a person may be subjected to the influence of the specific reference. what I contend for is this, that a person may be subjected to the influence of the specific poison—that is, the germ of Cholera or Fever—and not contract the disease. Why? Because his secretions were in a thoroughly normal condition, and consequently the poison could not take root, any more than a weed could do on a flagstone; and, on the other hand, a person may have the soil (that is, disordered secretions, &c.) very favourable for the disease, and still he escapes. Why? Because the soil was prepared, but 1.35 was no seed. Hence the importance and great value of ENO'S FRUIT SALT, which, under all circumstations, keeps the secretions normal; if only as a preventive against and sure remedy for poisoned blood, biliousness, sick headache, &c., no one ought to be without it.

ENO'S FRUIT SALT
REMOVES POISONOUS MATTER caused by impure or vitiated air, errors of eating or drinking, &c., by natural means. No one is safe without having at hand some efficient means of warding off BLOOD POISONS. After a very patient and careful observation, extending over many years, of the effects of ENO'S FRUIT SALT, I have not the least hesitation in stating that, if its great value in keeping the body healthy were universally known, not a single travelling trunk or portmanteau would be without it.
ZULU WAR.—SURVEYING THE MAPUTA RIVER.

IMPORTANT TO TRAVELLERS AND ALL LEAVING HOME FOR A CHANGE

WINCHESTER, July, 1884. SIR,-I write to tell you what your FRUIT SALT has done for me. During the Zulu War. Consul O'Neill and myself had occasion to survey the Maputa River. We had great difficulties in stowing sufficient fresh water for our need, and were obliged on our return to drink the river water-water you may call it, but I call it liquid mud; mudbanks both sides, a tropical sun all day, and a miasmatic dew all night. We had the good fortune, however, to have with us a couple of bottles of your invaluable all night. We had the good fortune, however, to have with us a couple of bottles of your invaluable FRUIT SALT, and never took the 'water' without a judicious admixture of it, and so did not suffer from the abominable concoction. Now when we arrived at Lorenzo Marquay, there was no more FRUIT SALT to be obtained. I was sent on to Durban, but poor Mr. O'Neill was on the flat of his back with ague. At Durban I could only get one bottle, as everyone was sold out, it being so much in demand. When I mention that we only went in a small boat with four niggers, and that two expeditions from men-of-war, with fully equipped boats, had tried the survey before and only got forty miles (having lost the greater part of their crews through the malaria), while we got over eighty miles, I think I am only doing you justice in putting our success down to your excellent preparation. I am, sir, yours faithfully

To J. C. Eno, Eeq., Hatcham, London, S.E.

JEOPARDY OF LIFE. THE GREAT DANGER OF DELAY.

You can change the trickling stream, but not the raging torrent. BLOOD-POISONS. The Predisposing Causes of Disease, or, how to Prevent a susceptibility to take Disease. SICK HEADACHE.—'After suffering for nearly two and a half years from severe Headache and Disordered Stomach, and after trying almost everything and spending much money without finding any benefit, I was recommended by a friend to try ENO'S FRUIT SALT, and before I had finished one bottle I found it doing me a great deal of good, and now I am restored to my usual health; and others I know that have tried it have not enjoyed such good health for years.—Yours most truly, ROBERT HUMPHREYS, Post Office, Barrasford.

A NATURAL APERIENT.—ENO'S FRUIT SALT.—An unsolicited Testimonial from a gentleman an F.S.A., who is now about eighty years of age, writes:—I have for a long time used ENO'S FRUIT SALT; I have found it an effective yet gentle aperient, very beneficial to persons of sedentary habits, especially such as exercise not the limbs but the brain, and frequently require to assist nature without hazardous force. It acts, according to the quantity taken, either as a relieving medicine, or as a cooling and refreshing drink: and I am convinced that it does not weaken when it stimulates.'

OUDDEN CHANGES OF WEATHER, ANY EMERGENCY, INFLUENZA, FEVERISH OOLDS.—DRAWING AN OVERDRAUGHT ON THE BANK OF LIFE—Late hours, fagged, unnatural excitement, breathing impure air, too rich food, alcoholic drink, gouty, rheumatic, and other blood poisons, biliousness, sick headache, skin eruptions, pimples on the face, want of appetite, sourness of stomach, &c., use ENO'S FRUIT SALT. It is pleasant, cooling, health-giving, refreshing and invigorating. You cannot overstate its great value in keeping the blood pure and free from disease THE SECRET OF SUCCESS.—'A new invention is brought before the public, and commands success. A score of abominable imitations are immediately introduced by the unscrupulous, who, in copying the original closely enough to deceive the public, and yet not so exactly as to infringe upon legal rights, exercise an ingenuity that, employed in an original channel, could not fail to secure reputation and profit.'-ADAMS.

CAUTION .- Examine each Bottle, and see that the Capsule is marked 'ENO'S FRUIT SALT! Without it, you have been imposed on by a worthless imitation.

Sold by all Chemists. Directions in Sixteen Languages how to Prevent Disease.

The most valuable Indian & Tropical Remedy known.

FREEMAN'S ORIGINAL

Is allowed to be the greatest medical discovery of the present century, and its introduction into India has been regarded, both by Europeans and Natives, as the safest and most successful remedy known

FOR THE TREATMENT AND CURE OF THE FOLLOWING INDIAN DISEASES :--

Diagrhaa, Aque, Dysentery (both Acute and Camp), Ardent and Dengue Fever, Cramp, Colic, Gout, Neuralgia, Paroxysmal and Continuous Fever, Rheumatism, Wind-Stroke, Sorethroat, Influenza, and Asiatic or Malignant Cholera.

FREEMAN'S CHLORODYNE is a SPECIAL and SPECIFIC Remedy for the above Indian Maladies, if taken immediately and according to the clear and explicit directions which are wrapped round every bottle. Mr. Freeman, the Inventor, is glad to find that Anglo-Indians are becoming more alive to the fact, that the theory of acclimatization has received a somewhat different interpretation since the introduction of his Chlorodyne into India, in 1850.

DIARRHOEA. For the treatment and cure of this very prevalent malady in India, it rarely, if ever, fails.

DYSENTERY-so common in all seasons of the year, and in every part of India-affecting Europeans and Natives, old and young alike, Freeman's Chiorophyne, if taken in its Earliest stage, rapidly checks the disease, and in the more acute and chronic cases will, if persevered with, effect a cure.

ASIATIC or MALIGNANT CHOLERA.—In all stages of this Epidemic Malady, recent

investigations by the most eminent Scientists and Medical Men in all countries, prove FREEMAN'S CHLORO-DYNE to be the only known Specific. A separate paper, specially drawn up by an Indian Army Surgeon, accompanies every bottle from the smallest size to the large, or Tea-planters' bottles, which contain a pint and are proportionally cheaper.

CHILDREN'S DISEASES in INDIA.—FREEMAN'S CHLORODYNE will be found a valuable

medicine for Children, and a proper SCALE of Infantile doses is given with each bottle.

It rapidly relieves pain from whatever cause, allays the irritation of Fever, sooths and strengthens the system under exhaustive diseases, restores the deranged functions, stimulates healthy action of the secretions of the body, gives quiet and refreshing sleep, and marvellously prolongs life. It may be taken by old and young at all hours and times.

SPECIMEN TESTIMONIAL.

From Monsieur Barthelemy Bonjour, Delegate of the Society for the Relief of the Wounded, Decorated with the Cross of the Convention of Geneva.

"Le Caillon pres Meung sur Loire, France, June 18th, 1873.

"I hereby attest that the Chlorodyne manufactured by RICHARD FREEMAN, Pharmacist, of London, is the best remedy against Cholera and Dysentery, and further affirm, as Director of the Anglo-American Ambulances and of French prisoners during the War from 1870 to 1871, that a large number of those under my care were attacked with Dysentery, and that by means of his Chlorodyne they were in a few days perfectly cured.

(Signed) BONIOUR BARTHELEMY."

Manufactured by the Sole Inventor, RICHARD FREEMAN, Pharmacist, 70, Kennington Park Road, London, S. E.

Sold in Bottles at 12 Annas, Re. 1-8, Rs. 2-8, Rs. 6, and Rs. 10.

Sold by Chemists and Patent Medicine Dealers in all parts of the World.

Testimonials from most eminent medical men accompany each bottle.

Anglo-Indian and Native Purchasers are cautioned not to have palmed upon them any substitute. There are other articles bearing the name of Chlorodyne, but quite devoid of its wonderful effects. See that the Trade Mark, "The Elephant" or "Hathi," is on the wrapper, &c., and that the words Freeman's Original Chlorodyne are engraved on the Government Stamp, which is the ONLY TRUE CHLORODYNE.

Sole Wholesale Agents for all India— ATKINS, ALLAHABAD, N.W.P.,

From whom supplies may be obtained or orders transmitted to England.

Full Directions in thirteen Oriental Languages accompany each bottle.
